

Muhammad Amin

Antalya, Muratpasa | ameen.jalolov@gmail.com | [LinkedIn Profile](#) | [GitHub](#)

Summary

- **3+ years of experience** in automation testing (mostly using **Java Selenium**) and building mobile applications with **Flutter** both from scratch and diving into an existing codebase.
- I have developed many applications with Flutter and 2 major grocery delivery + courier applications and the Complaints application from scratch
- Currently I'm a Flutter developer and SDET/QA using (**Flutter, Java, Selenium, C#**) in [Fabrikod](#) and other companies

Skills

Languages: Flutter, Dart, Java, Selenium, C#

Technologies: REST API, Firebase, Junit

State Management: GetX, MVC

Tools: TeamCity, TFS, GitHub

Source Control: Git

Methodology: Agile, Scrum, TDD

IDE: IntelliJ IDEA, Android Studio, Visual Code

Accomplishments:

- ✓ structured application with MVC
- ✓ implemented state management with GetX
- ✓ increased performance of the application
- ✓ reduced manual testing in 20%
- ✓ wrote high level test scenario and test cases
- ✓ introduced continuous software delivery process

Work Experience

Lead Mobile Application Developer, *Fabrikod.*, Istanbul

Sep 2021 - Present

Project: Grocery Delivery project at Fabrikod, team lead, team of 4.

Accomplishments:

- ✓ Implemented caching
- ✓ Speed up UI loading time 2 times
- ✓ Implemented state management with GetX
- ✓ Increased performance of the application
- ✓ Introduced continuous software delivery process

Technologies: Dart, Flutter, GetX, Firebase

Software Engineer Developer in Test / QA, *Caprtech*, *Texas, USA*

Dec 2018 - Present

Project: Automation and Manual Testing.

Accomplishments:

- ✓ Reduced manual testing 20%
